Kent ISD 

Kent County Superintendents Association Collaborative Schools of Choice Program

The Schools of Choice Program helps parents explore the option of sending their children to a school district other than the one in which they live.

All 20 public school districts within Kent ISD participate in the Kent County Superintendents Association Collaborative Schools of Choice Program. The program is coordinated by Kent ISD.

The plan is open to all families within Kent ISD. All students are eligible, regardless of grade level*, ethnic background or student ability. The only limit on movement between school districts is the space available in the desired district.

Each year by early April, our school districts publish the number of Schools of Choice openings they will have for the coming school year and begin taking applications from parents who would like to select a new school district for their children.

Depending on the number of seats available and the number of applications for those openings, one of these things will happen:

- If a district has more openings available than applications, all eligible applicants will be invited to enroll their children.
- If a district has unused openings, those seats will remain open through August 18, 2025. That means parents interested in that district have the opportunity to apply for a Schools of Choice opening until school begins.
- If a district has more applications than seats available, a lottery will be conducted. Families selected through the lottery will be invited to enroll their children in their district of choice. (The application form submitted by families not selected in the lottery will be placed on a waiting list and/or forwarded to the family's alternate choice of schools for consideration.)

Parents will be notified if their student is accepted into the district desired. Once enrolled through Schools of Choice, that student can remain in the district for his or her entire school career. Siblings may be accepted by the district of choice as well.

**The Collaborative Schools of Choice Program is only for grades Kindergarten through 12. Schools of Choice does not apply to preschool or special education transition programming.*

10 Considerations When Selecting a School

Does the school and the community match your expectations? Are buildings presentable? Are teachers and students friendly?

What is the student-teacher ratio? Will your child get the attention he or she needs to succeed? Are students actively engaged in their education? Is there a sufficient mix of teaching and self-guided instruction to engage your child?

What special services does the school offer? Does it offer the special needs or gifted and talented programming your child might require? Do the extracurricular and athletic offerings match your child's interests?

Will school or self-provided transportation meet your child's needs? Will transportation capabilities allow your child to participate in the before- or after-school activities that meet his or her needs and interests?

Does the curriculum meet state and national standards? Does the curriculum help prepare children for the realities of the working world and the diverse people they will meet? Does the district offer special programming focused in areas of interest to your child?

Will there be consistency in the curriculum, the staff, and in your child's friends from year to year?

How does the school integrate technology into the classroom? Is technology integrated into the curriculum? Does the school have a well-equipped media center?

How does the school handle disciplinary matters? What is the parent's involvement in disciplinary matters?

How does the school communicate with families? Do the opportunities for parent involvement meet your needs and desires? Are parents involved in their children's education?

What is the school doing to meet demands for improved student achievement? Are parents, teachers and administrators actively involved in efforts to ensure curriculum and technology are current and appropriate for student needs?

How to Apply for Schools of Choice

Parents Can Apply By:

- Requesting a Schools of Choice application form from their resident district or choice district during the application period, **Monday, April 14, 2025 through 4:00pm on Friday, May 16, 2025.**
- Completing and returning the application to the district of choice.

Be sure to indicate alternate school choices on the form, in case the district of choice has more applications than openings and must then have a lottery. Applications of students not selected in the lottery will be automatically forwarded to the alternate choices listed on the form and/or placed on a waiting list.

Note: Only one total application should be submitted per student.

Other Important Deadlines:

- Parents will be notified if their student was accepted into the district of choice no later than **May 28.**
- Parents must confirm their decision to enroll with the school district by **June 4.**
- Parents with students on a waiting list will be notified if there are openings and will confirm decisions to enroll by **June 20.**

Special Considerations for Parents & Students Considering Choice

- Transportation is not provided for Schools of Choice students; parents must provide their own transportation.
- Michigan law and the Kent County Superintendents Association agree that siblings should be kept together in a single district whenever possible. As a result, siblings of current Choice students may receive preference in filling district openings.
- According to the Michigan High School Athletic Association, students accepted into the Schools of Choice program who are in grades 10-12 who have participated in an interscholastic scrimmage or contest in an MHSAA sport on a school sponsored team in Michigan or elsewhere during the previous season for a sport, and then transfer to an MHSAA member school, are ineligible at all levels of that sport at that school through the next complete season in that sport. Students who transfer during a season in which they are participating are ineligible at all levels of that sport for the remainder of that season, and they remain ineligible at all levels of that sport through the next complete season in that sport.
- According to the Michigan High School Athletic Association, students accepted into the Schools of Choice program who are in grades 10-12 who have not participated in an interscholastic scrimmage or contest on a school-sponsored team in Michigan or elsewhere in an MHSAA sport one season may transfer from one school to another with no delay in eligibility at any level in that sport the next season. Contact the Athletic Department for additional information.
