From: Dr. Steve Matthews, Superintendent

Date: August 11, 2025

Subject: Bond concept

Over the past two years our district has been engaged in a process of strategic planning. It began during the 2023-2024 school with our RAMS XII update. RAMS, the Rockford Action Model for Success, has been a staple in the Rockford Public Schools for over 30 years. In the 2023-2024 school year we surveyed our staff and community, looked at our district data – both academic and financial, and updated our strategic plan.

Over 3000 parents, community members, students, and staff participated in this strategic planning process. One of the pillars that was identified as critical to our district's long-term success was organizational effectiveness. Contained within this pillar was the strategic action step of facility enhancement.

RAMS XII identifies five pillars that support the work of our district. Those pillars are:

- Academic Excellence
- Wellness and Preparedness
- Social Responsibility and Community Engagement
- Collaborative Culture
- Organizational Effectiveness

That strategic plan – RAMS XII – was presented to the board in June 2024. At the August 2024 board meeting RAMS XII was formally approved.

After the approval of RAMS XII, a comprehensive facilities review was undertaken by GMB architects and OAK construction management. GMB and OAK visited all of our facilities and spoke with our building and departmental leaders to identify needs and potential options for our buildings and sites.

During the 2024-2025 school year all parts of our district worked to ensure that progress was made on each of these pillars.

Additionally, a citizen committee of seventeen people was created to examine the current facility needs and to identify possible future opportunities

- The committee met five times over three months
- The facilities report was reviewed
- New opportunities were examined

Parent meetings were held to review the ideas generated by the citizen committee

- Interschool Advisory Council (ISAC)
- School parent organizations

We have gathered the insights from these conversations and believe that we have a path forward to improve our facilities and enhance the opportunities that we provide our students, staff, parents, and community.

We reviewed this proposal with the board in July. Tonight, we come to the board to ask for approval. With approval this question could be put before the voters in November.

(Pursuant to State law, expenditure of bond proceeds must be audited and the proceeds cannot be used for repair or maintenance costs, teacher, administrator or employee salaries, or other operating expenses.)

How does a bond fit into school finances?

- All districts receive a per-pupil allocation from the state
 - 80% of our per-pupil allocation is spent on staff salaries and benefits
- Our Rockford school community has also supported a sinking fund
 - It was approved for .5 mills (half a mill)
 - With Headlee rollback it is now levied at .4662 (less than half a mill)
 - The sinking fund brings in between 1 and 1.5 million dollars a year to support facility repair
 - For example, last year the elevator at East Rockford Middle School needed repair
 - We used the sinking fund for this expensive repair which protects the general fund
 - Sinking funds cannot pay for salary and benefits of staff
- The Rockford Public Schools has historically supported bond projects for major capital expenses, technology, and buses
 - Bond proceeds must be audited and the proceeds cannot be used for repair or maintenance costs, teacher, administrator or employee salaries, or other operating expenses.

Why are there no architectural plans?

- Architectural plans cost money
- Before we expend money on architectural plans we want to see if the community would support these concepts

What must happen for this to be on the November ballot?

- Board must approve the ballot language
- Language must be received by Kent County elections Office by August 12
- Multiple community conversations will take place to inform the community of this proposal
